

VA Research Participation Consent

Session Description

You are being asked to participate in a feedback session to give your opinion on a website created by the Department of Veterans Affairs. By participating in this feedback session, you will help the VA improve this website.

This feedback session will take about 45 minutes. We'll ask you some questions about a new design for the School Resources page. We typically record session comments using written notes, audio recording and video recording, if there is a visual component. If you prefer that we not record using one of these methods, you can indicate so below. We will not use your name when presenting the results of this research effort. We may use the recording in the future to help show others how to improve websites.

You may end the session at any time. If you need a break, just tell the moderator. If you have questions, you may ask them whenever you like.

Consent

By initialing below and signing this form, I give my permission for the VA to use:

- Written notes of verbal statements (initial here h)
